Diamond Tools

DISCHI DA TAGLIO CUTTING DISCS

- Dischi a settori per vetro stratificato e blindato
- Dischi a fascia continua per vetro artistico e mosaico
- Dischi a settori ravvicinati per mosaico
- Dischi a fascia continua e a settori a corpo maggiorato per alta precisione mosaico
- Segmented discs for bulletproof glass
- Continuous rim discs for artistic and mosaic glass
- Narrow segmented discs for mosaic
- High precision segmented and continuous rim discs with thicker core for mosaic

MOLE PERIFERICHE PERIPHERAL WHEELS

- Mole periferiche diritte a fascia continua con intagli
- Mole periferiche diritte a fascia continua
- Mole a gola mezza tonda
- Mole a gola trapezia
- Mole a profilo "OG"
- Mole a profilo becco di civetta
- Flat edge continuous rim peripheral wheels with slots
- Flat edge continuous rim peripheral wheels
- Pencil edge wheels
- Trapezoidal wheels
- Ogee profile wheels
- Half bullnose profile wheels

MOLE FRONTALI FRONTAL WHEELS

- Mole frontali a settori
- Mole frontali a semisettori
- Mole frontali a fascia continua
- Mole frontali resinoidi
- Segmented frontal wheels
- Semi-segmented frontal wheels
- Continuous rim frontal wheels
- Resin frontal wheels

MOLE PER INCISIONI ENGRAVING WHEELS

- Mole a fascia continua per incisioni a "V"
- Mole a fascia continua per incisioni raggiate
- Mole a settori per incisioni raggiate
- Mole periferiche a settori per lavorazioni manuali
- "V" engraving continuous rim wheels
- Rounded engraving continuous rim wheels
- Rounded engraving segmented wheels
- Manual works segmented peripheral wheels

FRESE, FORETTI E SVASATORI FINGER BITS, DRILLS AND COUNTERSINKS

- Frese da taglio a settori
- Foretti a fascia continua
- Foretti a fascia continua con svasatore
- Svasatori conici e tronco-conici
- Segmented cutting finger bits
- Continuous rim drills
- Continuous rim drills with countersinks
- Complete cones and truncated cones countersinks
